**12. August 2021**

**Student Assistant (m/f/d) Linguistic Data Science Lab, Bochum**

(10h/week, starting as soon as possible/autumn 2021)

We are hiring a student assistant at Linguistic Data Science Lab ([www.ldsl.rub.de](http://www.ldsl.rub.de)) to support our work in the DFG-funded project “The grammar of Experiencer-Object verbs: theoretical, computational and experimental approaches towards reflexive binding in German” (Prof. Dr. Tibor Kiss, KI 759/9-1), starting in autumn.

Main tasks:

- Assistance in implementation and evaluation of linguistic experiments
- Assistance in programming and data analysis
- Literature research
- Research support activities

What we offer:

- Flexible working hours
- Participation in research activities
- Practical application of computational linguistic knowledge/Data Science
- Deepening of linguistic contents and methods

Requirements:

- Student in a Bachelor's or Master's program in Linguistic Data Science, Computational Linguistics, Linguistics, Computer science, Mathematics or related disciplines
- Interest in theoretical linguistics, computational linguistics, data science
- At least basic knowledge in theoretical linguistics (particularly syntax)
- Very good command of German and English
- Desirable: programming skills in R and/or Python, knowledge of experimental linguistics/corpus linguistics
- Reliability, ability to work in a team, flexibility, diligence

If you are interested, please send a short personal introduction and CV to [johanna.poppek@rub.de](mailto:johanna.poppek@rub.de), deadline **15/09/2021**. We are looking forward to your application!
